

Start off the New Year with beautiful Yellow

SUNBEAM SUNFLOWERS

The perfect gift to help brighten the New Year!

Color:

The Sunbeam Sunflower has a uniquely bright center. It starts out bright green and turns yellow as the flower matures.

Lasting:

Sunbeams are one of the longest lasting varieties, 9+ days.

Warehouse QC Fact:

Sunbeam petals in Dry packs may appear curved inward upon receiving. This is a temporary, pre-hydration characteristic. Sunbeams are bred with double petals for longevity and bloom quality. Each Sunflower will unfurl once cut and hydrated.

Sunbeams:

It takes 8-10 weeks to grow a Sunbeam from seed to flower.

This Sunbeam variety is pollen free, which means it won't stain your table cloth, clothes or counter.

Display:

Yellow makes a significant impact and attracts customers to your floral department

Dos Gringos is the world's largest ornamental Sunflower company. Moderate coastal plains and warm inland valleys make Southern California and Mexico the ideal climate for growing our premium warm-day varieties all year long.
